VOLUME CVI.---NO 90. ALEXANDRIA, VA., MONDAY EVENING, APRIL 17, 1905. PRICE 2 CENTS.

A rich man died the other day. He died in the very midsummer of life, and he left his family $1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."

The symptoms of a disordered stomach are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dingy complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness dependency. No person will have all these symptoms at once.

The restoration of the stomach to sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses until the functions of the stomach are in healthy operation. Then the nerves are quiet and strong, the appetite healthful, the sleep restful, the eye bright, the complexion clear.

"Please accept my thanks for the benefit which my child received from your medicine," writes Mrs. W. A. Morgan, of Silica, Mo. "He had been troubled for nearly a year with liver complaint, indigestion and constipation. I gave him your 'Golden Medical Discovery' and 'Pleasant Pellets,' and they did him great good. I gave him the 'Discovery' about eight months, and several vials of the 'Pellets.' He seems to be perfectly well now."

If you want a cure accept no substitute for "Golden Medical Discovery."

Pierce's Pleasant Pellets

These ORIGINAL Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago, have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged Stomachs, Livers and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

PANIC AT FIVE-CENT STORE

To advertise the opening Saturday of a new five-cent store in Philadelphia the management announced that it would sell umbrellas worth one dollar for a nickel, wash boilers worth ten times as much for a similar trifling sum, and other articles necessary in most households equally as cheap. As a result thousands of persons gathered about the store and in the wild fight for admission scores of the weaker were trampled under the feet of the more robust bargain hunters.

Two women and two girls were taken to the hospitals unconscious from contusions and shock, and many others were restored to consciousness by physicians from the several hospitals stationed near the building.

That hundreds of women and children were not crushed to death is due to the efforts of the reserve squad of City Hall, who were ordered to the store early in the day.

The store was opened at 9 o'clock Saturday morning. Long before that hour Market street was blocked by hundreds. No sooner was the store thrown open than the women surged forward, pushing and jostling one another. Within three minutes the store was filled. Then the doors were closed while they made their purchases.

Margaret Kiblin, who was squeezed between hundreds of women in the store, swooned. She was carried to the Commerce street entrance of the store, and then removed to Jefferson Hospital.

When the doors were opened for the second time Market street was lined with several thousand women and children. The crowd extended over the car tracks and blocked traffic. Some of the bargain seekers stood for hours with infants in their arms. Fighting, scratching, screaming, they struggled fiercely to enter the store. Women were trampled to the pavement and babies were torn from the arms of their mothers. Dresses and hats were ruined, and pocketbooks were snatched from the hands. The police seemed powerless.

Once inside the store, the women and a few men literally battled their way to the various counters. Men with wash boilers in their hands pushed against women with pitchers; clothes baskets and other kitchen utensils were thrown about the store, landing upon the heads of the purchasers. The salespeople were powerless to prevent the destruction. Hundreds of articles were stolen in the scrimmage, and the management ordered the doors closed again.

Crowded to suffocation, many of the salesgirls fainted. Women shrieked hysterically to get out, but the mob at the rear doors was equally as great as that in the front, and for nearly half an hour hundreds of women were jammed immovable in the store. As fast as they fainted the women were carried to the rear of the store, where some of the salsgirls organized a temporary medical ward.

Captain Donaghy learned of the rush, and hastened to the store. When he saw the condition of affairs he ordered the management to open the front doors immediately, and sent for the entire reserve squad. Ambulances from the Jefferson, Pennsylvania and Hahnemann Hospitals and two patrol wagons were hurried to Market and Commerce streets.

Hundreds of persons came running from all directions, and the crowd increased in Market street until the trolley cars and wagons were compelled to halt. When the doors were opened for the third time nearly three thousand persons tried to force an entrance. The policeman could not stem the awful rushes.

Once inside, the crowds jumped over the counters, took all kinds of goods from the tables and the saleswomen, and then fought madly to reach the street. By this time the management had stationed men along the store, and the thousands were kept pouring into Commerce street. Many women who fainted refused to give their names to the police and physicians. Order was restored late in the afternoon.

Captain Donahy said the crowd was the greatest he had ever seen in the city at one place.

Cruel Treatment of Blacks.

The infamous treatment meted out to the black girls and aboriginal children who live under the "protection" of the British flag in Western Australia has already been the subject of protests in the British Parliament, and is again to be made the subject of early debate in the House of Commons. Nothing that has heretofore been printed, however, approaches the actual facts disclosed in the report of Dr. Roth, the Queensland protector of aborigines, the text of which has now reached this country.

Briefly put, the case stands thus: The white settlers are continually killing off the black men's staple food—the kangaroo. The aborigines are faced by two alternatives—starvation or killing the white men's cattle. No other provision having been made for them by the white settlers who have dispossessed them, the blacks, ignorant of the fact that they are committing any offense, kill the white men's cattle to avoid starvation. Then the white man's armed and mounted police "round them up," put them in chains and carry them off to prison, taking with them, also in chains, scores of women and girls as "witnesses." These girls are subjected to treatment so infamous that it can only be hinted at.

Shameful evidence as to the cruel indignities to which these girls are subjected at the hands of the police and stockmen has been brought to light by Dr. Roth, the commissioner appointed by the commonwealth government to investigate the scandal. He shows beyond all doubt that young black girls are put in chains, stripped, flogged if they prove awkward, and forced to submit to indignities which should subject the perpetrators to 10 to 20 years' penal servitude.

Armed and mounted police, accompanied by armed native trackers, hunt the blacks charged with cattle killing, arresting, without a warrant, as many as 30 at one time. The women are never arrested for cattle killing, but they are compelled to go and give evidence against their husbands. Young women, as Dr. Roth shows, are almost always chosen for this purpose, and at night they are chained to the trees, and so left at the mercy of police, stockmen and native trackers.

MONDAY EVENING, APRIL 17, 1905.

THE ATTENTION of the civilized world has during past years been called to the inhuman treatment meted out to the natives of the Congo by the Belgians, and now reports from Australia show that the British are out-heroding Herod in the land of the bushman. White men have for years been making a conquest of Australia, during which time they have virtually exterminated the kangaroo, the food provided by nature for the aborigines, and the latter, in order to avoid starvation, are occasionally tempted to kill cattle belonging to the English. The treatment the natives receive from the hands of the whites in retaliation cannot be recited in detail, as women seem to be the special objects of the vengeance of their conquerors. We are told that when the Spaniards first came to this continent and realized that nearly everything could be grown here, they were perplexed by the labor problem. Most of the early adventurers were too indolent to work in the sugar cane fields, and they coralled Indians and, after placing hoes in their hands, stood over males and females with blacksnake whips and compelled them to labor. The white man wherever he goes seems to act the part of an oppressor, and the present unfortunate relations between the Mongolians and the Circassian race has doubtless been superinduced by the latter. The cry of "yellow peril" is now raised when the worm turns.

AFTER all the argument in the Senate by Senators of the railroad persuasion that the rebate question should be thoroughly investigated before any action was taken, members of the committee named to look into the matter are now largely inclined to drop the question for the summer months, at least. Aldrich is in Europe, Kean wants to go there and Tilman, Foster, McLaurin and Carmack have various reasons for not wishing to stay in Washington. Elkins is anxious to put some energy into the business, as the best protection of the railroad interests seems to demand a show of investigation, at least. This afternoon the committee, or part of it, will assemble to map out a line of action, or inaction, as the case may be.

THE Rev. Dr. Arthur S. Lloyd, formerly of this city but now secretary of the Board of Foreign Missions of the Episcopal Church, in New York, thinks that the world is suffering from an excess of pious discourse, and that if it is ever going to be saved some other plan will have to be adopted. Dr. Lloyd expressed this opinion Saturday before a student conference held in the Fifth Avenue Presbyterian Church, under the auspices of the Young Women's Christian Associations of New-Jersey and New York, and commended the work the associations are doing, chiefly because they do not follow the talking method.

THERE is one divorce to every 7.7 marriages in New Hampshire, and the evil of separation there is the greatest in the United States, if not in the world, excepting Japan. This is the declaration of Rev. W. Stanley Emery, rector of Trinity Episcopal Church at Concord, who, by request of the New Hampshire Conference of Charities and Correction, has prepared a paper which will be published in full in the forthcoming report of that organization. And New Hampshire is one of the New England States that would teach morality in the South!

EMMA GOLDMAN, the strenuous leader of anarchistic thought in America, in an address to the Sunrise Club, at New York, last week, said President Roosevelt was a poor man to set up as a specialist in motherhood. Commenting on the statistics, showing that 500,000 infants died last year of improper and adulterated food, she thinks that if the President concerned himself more with hygiene so as to protect the babies born, there would be no use of talking race suicide and clamoring for more babies.

MR. ANDREW CARNEGIE is said to have sent a message of congratulation to Mayor Dunne, of Chicago, telling him not to stop until every public utility that can be made the subject of private monopoly has been placed under the control and operation of the city. But Federal Judge Peter Grosscup declares that Mayor Dunne cannot make good his promises for municipal ownership, which he (Grosscup) describes as "a species of socialism that leads to the extinction of the individual."

EX-PRESIDENT CLEVELAND censures his critics who declared that his sporting trips are a veil for dissipation. He says: "I regard these criticisms and persecutions as nothing more serious than gnat stings suffered on the bank of a stream—vexations to be borne with patience and afterward easily submerged in the memory of abundant delightful accompaniments."

FORMER Controller Bird S. Coler, of New York city, has emerged into publicity by announcing his purpose to head a ticket pledged to the principle of municipal ownership of public utilities. He says he will go it alone if the democrats do not support him. It is believed that he will have to go it alone.

THE announcement made by President Roosevelt at Dallas, Tex., last week that he would be permanently through with his present position in four years, after which he would write the history of Texas, should set at rest the talk in some quarters about forcing his third-term candidacy.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 17.

Attorneys Lipscomb and Fields were arraigned before Justice Wright in the Criminal Court No. 1 today and pleaded not guilty to the charge of withholding funds of the Washington Benevolent Endowment Association. Their trial was set for April 25.

Distinguished honors will be paid to the memory of John Paul Jones, whose body was unearthed in Paris last week by Ambassador Porter after six years' search. It has been decided to send a sqdadron of the United States Navy to escort the remains in state to this country. Impressive exercises will take place on their reception here and on their subsequent interment in the National Cemetery at Arlington. Arrangements for these events will be made by the State and Navy departments.

The Navy Department was today informed of the sailing of the U. S. cruiser Marblehead from Corinto, Nicaragua, to San Jose in Guatemala. Naval officers declare that there is no significance in this movement and that the ship is merely on her way up to Pensacola. It is known, however, that recent information from Gustemala was to the effect that a revolution was impending in that country and it is believed in some quarters that the Marblehead has gone there.

Further congressional inquiry into the question of railroad regulation began this afternoon with the meeting of the Senate committee on interstate commerce, which was called to order by its chairman, Senator Elkins. Nearly a full membership of the committee was in attendance. The hearings will begin tomorrow. Estimates of the time which they will consume vary from two weeks to three months. Leading railroad men of this country and Europe will be invited to give their views to the committee. It is the intention of the committee to prepare a bill which is to be considered by Congress at the extra session which will began some time in October. It is generally conceded that the measure will not be as sweeping in character as the Esch-Townsend bill, passed by the House at the last session, and that it will include legislation aimed at the private car line and refrigerator car evils, which have been a fruitful source of complaint ever since the beginning of the agitation for regulation of railroad freight rates.

The U. S. Supreme Court today, in the case of George W. Beavers, former superintendent of salaries and allowances in the Postoffice Department, who was indicted for his alleged connection with the postoffice frauds, decided against him in his contention that the U. S. District court of New York had no right to remove him to the District of Columbia for trial.

The U. S. Supreme Court today held to be unconstitutional the New York law which made it unlawful to work more than 60 hours a week, or more than ten hours a day in bakeshops, confectioneries, etc., thus reversing the judgment of the court below.

The Postoffice Department this morning issued a fraud order against the Ubero Plantation Company, of Boston, and the Consolidated Ubero Plantations Company, of Boston, alleged get-rich-quick concerns that have been operating extensively in New England by promising fabulous returns on investments in Mexican properties.

The Daughters of the American Revolution saw this morning a partial realization of the project on which they have concentrated their efforts for the past five years. Continental Hall, a structure destined to take its place among the show buildings of Washington, was dedicated. Within this building the Daughters will hold their annual meetings and the general officers of the society will have their headquarters. Rooms will be devoted to the society museum, containing one of the choicest collections of revolutionary relics in the country. The south portico of the colonial structure will be supported by thirteen marble columns, each representing an original State. Everything about the building, architectural and in furnishings, will in some way recall the American struggle for freedom. The ceremonies were very simple and the hundreds of delegates to the 14th annual Congress attended in a spirit of good will and sincerity for the single project of the society on which all hands seem to be agreed. There is probably no social organization in the United States subject to more violent attacks of political upheavals than the D. A. R. Mrs. Fairbanks made the principal address this morning. M. Jusserand, the French Ambassador, followed the President-General. He referred to the presentation, at the last session of Congress, of the bust of Washington, by D'Angers, and said that a daughter of Lafayette, in memory of the great love her father bore for the United States, was preparing to present to the Daughters of the American Revolution a bas relief, by the same artist, depicting the chief actors in the drama of American freedom. The Ambassador's announcement was received with prolonged applause. The ceremonies were closed with a brief address by Senator Dolliver, of Iowa. The other sessions of the Congress this week will cover the monsoon and earthquake period, for a president-general is to be elected, and in the D. A. R. friendship ceases when the election begins.

Senator John W. Daniel has accepted an invitation to make an address at Worcester, Mass., on April 19, the anniversary of the battle of Concord. Senator Daniel will be the speaker of the day, and his address will deal principally with the life of the late Senator Hoar.

John A. Benson, the millionaire real estate operator of San Francisco, will have to come to the District of Columbia to be tried on a charge of bribery. The U. S. Supreme Court today rendered an opinion to this effect.

By a vote of 5 to 4 the Supreme Court of the United States today upheld the constitutionality of the Missouri law providing for the inspecting of beer brewed within the State as well as beer brought into Missouri from other States. The decisions of the courts below are affirmed and the Pabst Brewing Company loses its case. The main contention of the opposition to the account was that it violated interstate commerce clause of the constitution.

News of the Day.

A large pigeon house belonging to Mr. M. W. Pope, at Mount Washington, Md., was burned yesterday with from 1,000 to 1,500 pigeons and a pair of dogs.

Nan Patterson yesterday went to the Roman Catholic chapel in the Tombs in company with Mrs. J. Morgan Smith. It is said to be the first time she has attended religious services since she had been in jail.

Dr. Joseph Silverman, rabbi of the Temple Emanuel, in New York, in a sermon yesterday advised against mixed marriage as tending to unhappiness, and said young people who contemplate matrimony should be one in race and religion.

Voting on the bill for the separation of church and State the French Chamber of Deputies Saturday adopted, by a vote of 336 to 236, the clause by which the republic shall not recognize salaried or subsidized cults. Section 2 of the bill is now passed, and the debate on Section 3, which concerns religious edifices, will be continued today.

Andrew Brown, an expert "rubber" and known among his fellow craftsmen as "Fearless Andy," was killed instantly Saturday, by falling from the northeast transept of St. Patrick's Cathedral in New York to the eastern roof, some fifty feet below. Brown was engaged in placing a huge marble turret on its base, when he slipped from the bridge, bringing the massive turret after him.

Private advices received at Norfolk from officers aboard the cruiser Dixie, of Admiral Sigsbee's Caribbean squadron, state that there is no further sign of trouble in Santo Domingo. The Dixie, which is doing duty as a transport for marines, is now at Monte Cristi, San Domingo, whither she was dispatched post haste from Panama, with a battalion of marines for use as a landing force in the event of trouble in the island.

Since the American Oncologic Hospital for the treatment and study of cancer and other tumors was established in Philadelphia, last February, eight cancer patients have been discharged apparently cured. This fact was reported to a meeting of the directors held yesterday in the hospital. There has been but one death. That patient was suffering from cancer of the stomach, and the disease was in an advanced stage when the treatment was solicited.

A reign of terror prevails in the town of Valence, France, Within the last three weeks eight mysterious murders have been committed, the perpetrators of which have not yet been discovered. The circumstances in which the victims have been found give rise to the belief that the crimes were committed by members of the same band. Friday night another person—a waiter named Chovet—was murdered, his body being found early the next morning, riddled with revolver shots, lying in front of the restaurant where he was employed.

Louis Heck, jr., musicial director of Keith's Chestnut street theater, Philadelphia, and his wife, known on the vaudeville stage as Maybelle Eickert, were found asphyxiated by gas yesterday in the bedroom of their flat, at Carlisle and Lombard streets, that city. Two burners of a chandeller in the room were turned on. Whether the couple had deliberately planned to end their lives together or whether their death was an accident has not been definitely determinied, but the coroner is inclined to believed they died through accident.

Arcanum to be Stricter.

A dispatch from Buffalo, N. Y., says, "An executive committee of the Royal Arcanum is in session here. One of the members, is speaking of the order, said the reports for the year ending May 1 next would show that the receipts of the association exceed the amount of the deaths claims by only $20,000.

"We shall lay this fact before the Supreme Council, probably without any recommendation whatever," he said. The speaker stated that the executive committee would recommend not only that the medical examination be made stricter, but the applicant's mode of living and habits examined into. It will also bring up the question of monthly payment of dues instead of quarterly, and that of entering a man's age as reckoned from his nearest birthday instead of his last birthday, as at present."

Mr. Wilbur F. Smith, grand secretary of the Grand Lodge of Maryland, said that he did not have the figures at hand to refute the assertion made in the foregoing dispatch, but that he felt quite sure that there was no ground for any alarm over the financial condition of the order. The member of the executive committee at Buffalo, he said, may have been referring to the State of New York alone. Even in that respect, he said, he hardly regarded the statement as authentic.

Mysterious Murder.

There is great excitement at Little Falls, Minn., over the discovery yesterday of the dead body of Annie Kintop in the woods about four miles from that city. The body was entirely stripped of clothing, a handkerchief was tightly twisted about her neck and the head was a mass of bruises. Two negroes were seen in the vicinity of where the body was found, and search is being made for them. The girl, who was about to leave for the northern part of the State to take up a homestead claim, had been in Little Falls purchasing supplies. She left the city Monday evening for Darling, from which station she was to walk to her home, distant about two miles. After leaving Darling she was not seen again until her body was found yesterday. The place where the girl's body was found bore evidence of a terrific struggle. Charles Felson, living near the scene of the murder, says he heard screams about dusk on Monday night, and saw two unknown negroes near the spot. A posse has been organized, and the country is being scoured in search of the negroes.

Full of Tragic Meaning

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from this terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At E. S. Leadbeater & Sons, druggists; guaranteed; 50c and $1.00. Trial bottle free.

Virginia News.

J. A. McGilvray, of Richmond, has announced his candidacy for State superintendent of public instruction.

A marriage license was issued at Rockville, Md., Saturday, to C. Maltby Bryant, aged 24 years, and Miss Rosa V. Wiley, aged 21 years, both of Vienna, Fairfax county. They were married before leaving town.

While attending the ceremonies inaugurating Dr. Alderman as president of the University of Virginia, at Charlottesville, on Thursday, Judge Thomas W. Harrison, of Winchester, lost his balance on a flight of stone steps, fell heavily, and broke his collarbone.

The funeral of Mrs. Anna Lou Anderson, wife of Mr. W. Conway Anderson, of Linden, took place there yesterday. She died late Friday night, after a short illness. Mrs. Anderson was 36 years old and was a daughter of Mr. James E Walter, of Linden. She leaves four children.

The advance guard of the artillery forces to take part in the coming maneuvers between the army and navy at Fort Monroe has arrived. Within a few weeks it is expected that the entire reservation and the opposite shore of Hampton Roads will be dotted with tents for the army forces.

Strikes in Europe.

The excitement among the porcelain strikers in Limoges, France, is becoming more violent and manifesting itself principally against the American firm of Haviland, which has taken a leading part in the lockout. The socialist mayor's attitude of inactivity and his appeal to the ministry not to send troops appear to encourage the workmen to continue their demonstrations. They now refuse to listen to his advice to remain calm, and consequently a representative of the Haviland concern went to Paris to interview the Minister of the Interior, who ordered re-enforcements to be sent to Limoges. In the meantime the strikers exploded a package of cartridges before the house of the manager of the Haviland works, without, however, causing much damage. The barricades which were erected on Saturday are still in place. A procession of several thousand men, some of them armed, paraded the streets yesterday morning, proceeding to the prison, where they unsuccessfully attempted to force the doors. A mob then destroyed a religious statue. A picket of troops endeavored to break up the demonatration, but the strikers resisted, stoning the soldiers and hooting the officers. The crowd finally dispersed on the arrival of the cavalry.

A general strike of railway employes was to be inaugurated this morning, in accordance with the arrangements perfected through cipher telegrams directed to all railway centers by the agitation committee at Rome. The Neapolitan railway men were insistent upon going on a strike Saturday night, and as a concession to them the central authorities of the Operatives' Association consented that traffic on some of the Naples lines should be stopped immediately, but that on others one train should be run yesterday. The strike will prove a great embarrassment to foreign tourists, of whom there are a great many in Italy just now.

Capt. Curtis Reduced.

Gen. Grant, commanding the department of the East, has acted on the case of Capt. Arthur F. Curtis, Artillery Corps, stationed at Fort Hunt, recently tried by court martial at Washington Barracks on the charge of conduct unbecoming an officer and a gentleman, neglect of duty and embezzlement. The court acquitted the officer of the charge of unbecoming conduct and of the charge of embezzlement, but found him guilty of conduct to the prejudice of good order and military discipline and of neglect of duty and sentenced him to a loss of fifteen files in rank and to be reprimanded. The sentence was approved by Gen. Grant, who remitted that portion calling for a reprimand.

Secretary Loeb announced this morning in Glenwood Springs, Col., that in addition to the visit to Denver the President has accepted the invitation to three functions in Chicago.

Letter to Robert Elliott,

Alexandria, Va.

Dear Sir: Here's a bully one.

Mr Dooley (not of Chicago), painter, Lancaster, N H, got the job of painting the Episcopal parsonage. He was used to a paint, as pure as Devoe, but weak and short-measure—he didn't know it was weak or short-measure. Dooley surveyed the job, and said it would take 20 gallons.

Mr L F Moore, our agent, offered to give 10 gallons Devoe. Accepted of course.

Eleven gallons did it: the 10 plus one.

Mr Moore isn't painting parsonages on shares this year!

Yours truly

Today's Telegraphic News

Japanese Destroy Colliers.

London, April 17.—A dispatch to the Reuter Telegram Company from Saigon, Cochin China, says that the Japanese have captured a large number of colliers along the coast.

A message to Lloyds from Singapore, says the German steamer Devawongse reports passing the Russian fleet on the morning of April 14, in about latitude 13 degrees, north. The vessels were lying to at that time.

Admiral Togo has begun to harness the Russian fleet. The news came today from Saigon, Cochin China, in a brief dispatch which stated that Japanese skirmishing ships have captured a large number of Rojestvensky's colliers, which were awaiting the Russian fleet off the Cochin China coast. The fuel problem is the most difficult that a naval commander has to face when operating thousands of miles away from his base. To solve it, the Russians had dispatched many colliers, weeks before Rojestvensky sailed, to lie in the path of the Russian fleet so they could join it when needed. These fuel vessels the Japanese are now picking up and it is a severe blow to the Russian admiral. He has, of course, a number of colliers with his fleet, from which his ships load at sea, but eventually this supply will become exhausted. It is also possible that Togo will attempt to cut out or sink the colliers with the Russian fleet. Such a blow would render the Russian ships well-nigh helpless. This situation is one of great advantage on the side of the Japanese, as being near their base, the fuel question can easily be solved for them. This is one of the reasons that make naval men believe Togo will win.

Hong Kong, April 17.—The steamer Brynhilde which arrive here this morning from Bangkok reports that three Russian cruisers stopped her on Friday sixty miles north of Cape Hadaran, and after searching the vessel, allowed her to proceed. The captain of the Brynhilde counted thirty-three Russian warships in the fleet to which the three cruisers were attached. The warships appeared to be in good condition, and were steaming northeast, at the rate of ten knots an hour. Cape Hadaran is on the coast of Cochin China, about 150 miles northeast of Saigon. The course which the Brynhilde says the fleet was following, would indicate that the vessels were headed for Formosa strait. If the fleet was as far north as Cape Hadaran on Friday, and continued its course at the same speed, the vessels should be close to the straits by this time. The fact that the Brynhilde saw only thirty-three vessels would seem to bear out other reports that Admiral Rojestvensky had separated his fleet.

Affairs in Russia.

St. Petersburg, April 17.—A step toward carrying out some of the reforms promised to the people in the rescript of March 3 has been taken, as announced in an imperial rescript addressed to Count Kutaissoff, Governor General of Irkutsk. Through this decree the Czar makes public his intention of granting Zemstvo governments to a part of Siberia. This will give the people a measure of representation in the management of their local affairs, as the Zemstvo are elective bodies. The rescript points out that the Siberian Railway has profoundly changed the civil life of that region, and has promoted immigration from European Russia to Siberia. The Czar says therefore he is determined to introduce the Zemstvos for the general government of the provinces of Irkutsk, Tobolsk, and Tomsk, so as to provide for the representation of the people in the management of affairs.

Warsaw, April 17. During the recent strikes twenty-seven workmen at the gas works remained at their positions, working under guard, and kept the city lighted, thus forcing the strike to a termination. The strikers swore vengeance against these men, and in spite of the guard under which they have worked ever since, have picked off seven of the twenty-seven at intervals. Some of the victims were stabbed and others were shot. The police who guarded the men likewise have been attacked. For the last month both the police and the workmen have been terrorized. The former strikers have wreaked their vengeance on eight policemen, three of whom were killed and five wounded.

A Vendetta in Boston.

Boston, April 17.—All because of a pretty maiden and a fond lover, an irate father and a loyal friend of each started a little war of their own on Fleet street, in the north end last night, in which more than twenty shots were exchanged and two innocent bystanders were badly injured and sent to the relief hospitals with two of the principals, while the father and persistent lover are in the custody of the police. Accorsio Indeligado, 20 years old, started out to make a Sunday evening call at the home of his winsome Italian sweetheart, Accursia Marchesi. Going through Fleet street he was suddenly accosted by Carlo Marchesi, the irate father, who time and again had ordered him from the house. A wordy exchange followed for a few minutes, and suddenly both men whipped out their large .38 calibre revolvers and began to fight a duel. Vincenzo Marchesi, a brother of Carlo, soon put in an appearance, followed by Guiseppe Menazia, a friend of the lover, and they also began using shooting irons. The street was promptly cleared and the houses in the vicinity received most of the lead fired by the combatants. Two innocent witnesses, however, were struck, while Carlo Marchesi, the father, and Accorsio Indeligado, the lover, escaped without a scratch. Their two loyal friends, who came to the rescue, were badly injured by being struck by the flying bullets. The police arrested the principals and the wounded men and the latter will be locked up as soon as they get out of the hospital.

Paul Jones's Remains.

Paris, April 17.—Ambassador Porter, to whose efforts the discovery of the remains of John Paul Jones is entirely due, has received a message from the United States government thanking him for his work, and congratulating him on his success.

Richmond, Va., April 17.—Fredericksburg, Va., claims to have been the only home that John Paul Jones, the naval hero, had in America, the famous Admiral having lived there at the home of his brother, William Paul. The citizens will, therefore, seek to have the remains given final sepulchre within Fredericksburg's borders and guarantee to place an appropriate monument over their resting place.

The Taggart Divorce Case.

Wooster, Ohio, April 17.—The divorce case of Major Elmore F. Taggart, of the United States army, against Mrs. Grace Viola Culver Taggart, will come up for trial here this week. The case has furnished army society with much gossip. When Taggart filed a petition for divorce he made the complaint that Mrs. Taggart was unfit to care for their two little boys that she had been guilty of gross neglect of her marital duties, and intimated that she had been indiscreet with other men, but mentioned no names.

Mrs. Taggart in her answer and cross petition charged cruelty, said that he had on one occasion broken her jaw, that he was drunk at the time the deed was committed, and that he was guilty of infidelity. Major Taggart has just filed an amended petition and answer. After charging that Mrs. Taggart is addicted to cigarettes and intoxicants, he says that on one occasion she and the wife of a brother officer and other women engaged in a contest to see who could drink the most liquor. He says that she conspired with an army colony and had him (Taggart) arrested and charged with acute alcoholism. He charges his wife with infidelity and gives the names of several officers of prominence with whom he says she was unduly intimate. Mrs. Taggart denies all of Taggart's allegations, and says that she has word from two of the officers Taggart accuses of wrong-doing that they will be present when the case comes up for trial to give evidence in her behalf. Mrs. Taggart has been living here some months with her two little boys.

Trial Again Postponed.

New York, April 17.—The trial of Nan Patterson was again adjourned this morning until tomorrow, pending certain injunction proceedings brought by counsel of J. Morgan Smith to secure a return of the Smith letters seized by Assistant Attorney Garvan while out in Cincinnati. The prosecution has discovered a new witness, who will be called during the trial. The witness is Mrs. Thomas Burns, who assisted Mrs. William Luse, a sister of Mrs. Young, in housework. It came to the ears of counsel for the defense that Mrs. Burns was present the night before the shooting at the Luse's home and Young was intoxicated, and while in that condition drew a revolver in a spirit of bravado. Mrs. Burns was questioned about the affair, and her story quickly made her a witness for the State. She said that Young was dining at the Luse home the night before the shooting, and that he seemed very nervous Mrs. Burns said that Millin, the racing partner of Young, asked him what was the matter, and Young replied "nothing." Finally Millin said: "You want to look out for that girl, Caesar. She is dangerous." Mrs. Burns said that Young made some answer, whereupon Mrs. Young said that if any one harmed her husband she would take the revenge in her own hands. The District Attorney heard of the circumstance and will call Mrs. Burns to testify.

The postponement of the case until tomorrow brought out the fact that the J. Morgan Smith letters seized in Cincinnati are considered by the District Attorney to be convincing evidence of the Flora Dora girl's guilt.

The Strike in Italy.

Rome, April 17.—The threatened strike of railway employes went into effect last night, at midnight, and so many of the railway men have responded to the call to quit work that the whole country is affected. The strikers have been disappointed in that a large number of the men have still refused to join the strike and, by using them, the roads have been able to maintain some sort of a service, although it is greatly reduced. Signor Fortis, the premier, has declared that the service will be kept up by using soldiers to guard the trains and stations, while men from the navy will be utilized to act as engineers and firemen. The government has offered the railway authorities sufficient soldiers who will act as trainmen to permit the operation of one train daily over the principal lines. The train will not be allowed to travel faster than one-third of the full speed. It is estimated that 20,000 American and British tourists in Italy are stalled by the strike. The terminus of the Naples line here has been occupied by troops and precautions for the maintenance of order have been adopted. Four Naples trains have been taken off the schedule. Palermo and Foggia are also affected by the strike

New York Stock Market.

New York, April 17.—At the opening brokers were buying Union Pacific, Northern Securities and St. Paul preferred, but sold some steel common. St. Paul was bought and bid up. Berlin was again a heavy buyer of North American. The most interesting feature of the market is a huge borrowing demand for Union Pacific. After the first hour the trading assumed a negative tone, and selling orders continued to come steadily in Union Pacific, as they have done every day for over a month. American Smelting after cressing 120 in accordance with merger agreement last week, has since been supplied by the pool manipulators. Government bonds unchanged.

FOREIGN NEWS.

Admiral De Jonquieres has rejoined the French cruiser Descartes which is now in Kamranh bay on the coast of Cochin China, to the northeast of Saigon, Cochin China. Five of the leaders of the employes of the Haviland porcelain factories, at Limoges, France, who went on a strike a few days ago, were placed under arrest this morning. Large quantities of revolvers and cartridges were found in the house of one of the men when it was searched by the police.

The Color Line.

A controversy involving the color line has arisen at Eastman College. One hundred and sixty students at the college have signed a petition for the rejection of C. V. Daniels, who was admitted as a student a week ago, on the ground that he shows certain marked characteristics of the negro race, and if Daniels is not ousted the student body, the objectors declare, will leave the college. Daniels' father is of Danish ancestry and his mother a Porto Rican.

U. S. Grant Post, G. A. R., of New York, has been drawn into a controversy over the color line. The controversy was the result of the recent fair held in the Twenty-third Regiment Armory, Brooklyn, given under the auspices of the ladies' auxiliary society attached to the post. The fair was opened by Gen. F. D. Grant. The following night was known as "G. A. R." night at the fair, and the Grand Army posts were invited to attend. After the invitations had been sent out one of the women was told that one of the guests, Pierre Zeno, commander of William Lloyd Garrison Post, was a negro. She communicated the fact to the other women, and said that if a negro was to be invited she would cease to have anything further to do with the fair. A committee of the women called upon Commander Buff, of Grant Post, and urged him to take some action by which Zeno should be prevented from attending.

The result was the Secretary Jackson got into communication with Zeno, explaining that his presence at the fair would be objectionable, owing to his color, and suggesting that he decline the invitation.

Commander Zeno's feelings were hurt, and he lost no time in communicating the facts to other G. A. R. men, and the story traveled from post to post, and sympathy went out to him. Zeno's friends believe that an apology is due him from Grant Post.

The New Ferry.

Bids for the construction of the two new steel ferry steamers which are to be used on the proposed ferry line of the Norfolk and Washington Steamboat Company on the Washington and Alexandria route will be asked for this week and the Newport News Shipbuilding Company, the Maryland Steel Company at Sparrow's Point, near Baltimore, and Harlan & Hollingsworth, at Wilmington, will bid on the work. The plans and specifications for the new steamers have been prepared and call for very handsome boats. They are to be ready for service in the fall and the route will be kept open all the year around. The tearing down of the old slips in Washington and at Alexandria will be started within the next day or two and order for the material to be used in the new slips will be placed shortly. Within the next ten days Mr. Callahan will go to New York to secure the steamer for the temporary service while the permanent boats are in process of construction. The new slip in Washington will be built near the morgue and will be fitted with all the modern appliances. The present pier is to be rebuilt and will be so constructed as to give berth room for two steamers. This is exclusive of the ferry slip, which will be kept separated from the steamboat pier.

Running Into New Depot.

The Washington, Alexandria and Mount Vernon Railway began the use of its new tracks in Washington last night, the first car leaving the new station near Twelfth and D streets at 7:30 o'clock. The trains will run along Fourteenth street from the Long Bridge to B street, along B street to Thirteen-and-a-half, and up Thirteen-and-a-half to D street, on the old tracks. At this corner the cars turn on D street to Twelfth street to the point where the station is located. Leaving Washington the trains will run down Twelfth by the city postoffice to C and along C to Fourteenth, and then over the tracks now in use to the Long Bridge. The new tracks give the railway company a loop on which trains can be backed and turned, should it be necessary. The management has advised that where the new tracks are in use stops will be made on D street at Thirteen-and-a-half street on the trips from Alexandria, if notice be given to the conductor, and on Fourteenth street at C street on the trip to Alexandria on signal by passengers wanting to board the trains. The stops mentioned will be made for the convenience of those who are employed uptown, and who do not wish to go to the Twelfth street station to get aboard.

Wintry Weather Again.

During the past forty-eight hours wintry weather has prevailed hereabouts, and the ancient observation that April is borrowing from March has been as common as that concerning the ground hog's shadow on the 2d of last February. The northwest wind Saturday night lowered the temperature considerably, and early yesterday morning there were "spits" of snow. Old Boreas blew vigorously all day yesterday, and the temperature was too low for the comfort of those who were on the streets. The mercury in the thermometer at one time was down to 37°. It later moved up to 45°. Conditions remained practically unchanged as night drew on. Between 1 and 2 o'clock this morning snow began falling in heavy flakes, driven by the stiff westerly wind, and continued for about half an hour. The evidences of the snow flurries were visible this morning, and there were other spits later; thin ice formed during the night. The mercury stood at 40. There is considerable anxiety concerning fruit trees which have recently been in bloom hereabouts. Warmer weather is predicted for tomorrow.

Davis, $15,000; Miss Mary Russell, $1,000; Miss Nettie V. Bontz, $1,000; Miss Carrie Curtin, $500, Miss Katie Curtin, $500, and Mark L. Price, jr., $500.

Among the work the company has recently done is that for the Burke & Herbert Bank, the Virginia Safe Deposit Company, Citizens National Bank and the Union Baptist church in Baltimore.

The Fishery.

Conditions at Fishtown this morning were practically unchanged from those of Saturday. The receipts of herring are still abundant, but shad continue scarce and high. The latter were selling at $50 a hundred. There is still a scarcity of cutters, and operations are hampered seriously in consequence. The cutters, who had been receiving 40 cents a thousand for cutting herring, struck for 50 cents Saturday evening. The packers were forced to pay the increase, and at these figures were unable to procure as many cutters as they desired.

Fra Diavolo.

Miss Myra Lee Civalier, who is to take the part of Zerlina, needs no introduction to an Alexandria audience, having taken the leading roles in a number of dramatic and operatic productions, the principal parts being Queen of the Gypsies in the Bohemian Girl, and Miss Hurricane in the Little Tycoon, in both of which parts she made decided hits. Her portrayal of Zerlina, the innkeeper's daughter, is looked forward to with much interest by the patrons of Sharps and Flats.

A Sora.

A full grown sora in good condition flew against a telephone wire at the Alexandria Bricks Works last Friday and was killed. The bird was picked up by one of employees at the works, who saw it fall, and taken to Mr. Creighton's drug store where it was exhibited. A sora in April is truly a rara avis.

Fight at Church Meeting.

Rev. John Dodge, pastor of the Holiness Church, of Lebanon, Indiana, has been arrested, charged with having stabbed Oscar Johnson, a member of his congregation, during a quarrel which arose during a meeting held to consider the advisability of allowing a negro to preach to the congregation. During a heated argument between Miss Mamie Chambers and the pastor, the former slapped the preacher's face. The act angered the pastor's wife, who engaged Miss Chambers in a physical encounter. At this juncture, it is alleged, Oscar Johnson took part in the encounter, and almost instantly he was attacked by Rev. Dodge, it is said. Johnson suffered a knife wound in the back. Rev. Dodge was released under bond. Johnson will recover.

Phone Girls Not Needed.

An automatic telephone has just been introduced among a limited number of the Vienna subscribers. The chief advantage of the system is that it makes the telephone girl unnecessary. A sender merely turns a revolving disc, bearing the numbers 0 to 9, attached to his telephone, until each digit of the number he wishes to call up has been in turn brought opposite an index hand. The subscriber who has that number is then automatically called up by ringing the bell. If his number is already engaged the sender's telephone reveals the fact. So far, the invention is reported to be working well.

Senator Martin's Labor Record.

Mr. W. F. Holton, a resident of this city and chairman of the local board of adjustment of the Brotherhood of Locomotive Engineers, called at this office recently and left a copy of the monthly journal of the Brotherhood of Locomotive Engineers for April, published at Cleveland, Ohio, containing the following article:

"One of the most consistent advocates of legislation in Congress looking to the betterment of the condition of the laboring classes is Senator Thomas S. Martin, of Virginia. It was through his instrumentality that the Kean resolution to investigate the question of railroad rates was so extended as to include an investigation to ascertain the advisability of enacting a national employers' liability bill, which would do away with the old common law doctrine of fellow servants, behind which the railroads get to avoid paying just claims for damages in discharge of duty. This investigation will undoubtedly result in a Federal liability law, and it will prove a great boon to railroad employes.

"Another piece of legislation of interest to labor, secured by Senator Martin, was the provision that mechanics in United States navy yards shall be entitled to short annual leaves of absence with pay, thus placing them on the same plane with department employes."

Mr. Holton, as he turned to leave, remarked: "I, like many others of my working brothers, was at one time greatly prejudiced to Senator Martin, but I am glad to say I took the pains to investigate for myself his public record on labor questions, and I find that he has ever been our friend, notwithstanding insiduous rumors to the contrary, and in my opinion the laboring man who opposes Senator Martin doesn't know his own friend and will vote against his own interest."

"I feel," said Mr. Holton, "that the thinking laboring people are rapidly waking up to the fact that Senator Martin has proven one of their best friends in the national Senate."

Mr. Holton resides on Wilson street, and takes a very active interest in the work of his order.—[Danville Bee.

One Advantage of England's Fogs.

"Should scientists succeed in finding ways and means for dispelling the foggy condition of England's atmosphere I am afraid that country will lose more than it gains," said a weaver. "One of the reasons why English weavers produce fabrics of finer and softer finish than American weavers from the same quality of cotton and other yarn is because of the damp condition of the atmosphere in that country at all times.

"It is a well known fact that yarn kept continually and uniformly damp will spin finer and softer than that drying out in the process of weaving. Thousands of dollars have been spent by our weavers in appliances to keep their shops uniformly humid, but thus far without success. The fine quality of panama hats, for instance, if the straw were not kept damp while the process of weaving is on, could not be produced. The straw is not worked under water, as many suppose, but is kept uniformly damp by being worked in the early morning hours when a heavy dew is falling."—Milwaukee Sentinel.

Muscles In Tension.

The Revue Scientifique has been asking what muscles tire soonest, with the conclusion that it is not the muscles in use, but those under tension, although doing no work. The writer urges us to use the arms and legs less and the back and neck more, for on them comes the greatest strain. He has been asking men of all occupations the same questions:

When you have worked much, where do you feel tired?

Before you were trained did fatigue show itself in the same regions?

All the answers point to the same conclusions. The baker who kneads dough all night complains of fatigue in his legs.

The blacksmith is tired, not in his arms and shoulders, but in his back and loins.

The young soldier, after a march, is especially tired in the back of the neck, even if he has carried no knapsack.

The oarsman who is in perfect training after prolonged exercise gets tired in his calves and insteps.

These facts point to the conclusion that in any continued effort we should try to alter the habit of contraction. That is to say, the body, like the mind, needs change of work.

A Cruel Insinuation.

Mrs. Enpeck—I notice here in the paper that a young girl in New York confesses that she has been in the burglary business for a long time. Enpeck (recklessly)—No doubt she inherited the tendency from a mother who was in the habit of making nightly journeys through her husband's pockets.—Baltimore American.

Not Taking Chances.

Office Boy—Lady to see you, sir. Editor—Is she good looking? Boy—Yes, sir. Editor (returning)—Nice judge of beauty you'll make! Boy (in outer office to other boy)—Not takin' any chances. Thought she might be his wife.—Kansas City Independent.

Her Laudable Desire.

"Ah," said the earl, "I am afraid you are marrying me merely for my title?"

"Oh, dear, no!" replied the heiress. "It's merely because I want to see that dear old castle of yours repaired before it is an utter ruin."—Chicago Record-Herald.

Look Before You Shoot.

The true sportsman may be defined as one who looks before he shoots.—Amateur Sportsman.

The world's great men have not commonly been great scholars nor its great scholars great men.—Holmes.

Her First Dinner.

"Yes," said Newlywed, "my wife and I are housekeeping now. She prepared our first dinner last night with her own fair hands."

"How was it?" asked Bacheller.

"Well, the nuts and raisins were fine."—Philadelphia Ledger.

Most Deadly of Insults.

Fweddie—That creature actually told me to mind my own business, y'know! Cholly—The impertinent wretch! Fweddie—Positively insulting! As if to insinuate, don't y'know, that I was in business!—Cleveland Leader.

Nobody can help being born stupid, but anybody can help becoming stupider than he was born.—Lady Helen Forbes.

Early English.

Bachelor—I confess I can't understand what your baby's saying. Benedick—It is a queer language, isn't it? Bachelor—Yes; sort of early English.—Answers.

Interested.

"Do you believe in marrying for money?" Hangnail.

"I dunno. How much you got?"—Fort Worth Record.

Plans to Get Rich

are often frustrated by sudden breakdown, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies and give you a new start. Cure headache and dizziness too. At E. S. Leadbeater & Sons' drug store; 25c. guaranteed.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

The Right Name is DeWitt.

DeWitt's Witch Hazel Salve cools, soothes and heals cuts, burns, boils, bruises, piles and all skin diseases. K. E. Zichefoose, Adolph, W. Va., says: "My little daughter had white swelling so bad that piece after piece of bone worked out of her leg. DeWitt's Witch Hazel Salve cured her." It is the most wonderful healing salve in the world. Beware of counterfeits. Sold by W. F. Creighton & Son, 924 Queen street.

A Nightmareless Rarebit.

A bachelor whose skill at getting up dainty supper dishes assures him plenty of company in the evenings is responsible for a substitute for the Welsh rabbit that is free from nightmare. He covers lightly toasted bread with finely grated cheese and instead of slipping it in the oven places it beneath the flame of the gas broiler until the cheese has been toasted a light brown.

If a good cream cheese is used there is not the slightest suggestion of sogginess or greasiness, and even those to whom a rabbit means a night of troubled dreams may indulge in this with no fear of evil consequences.

The trick lies in the grating of the cheese. Broken into bits, it would melt into a pasty mass. Finely divided, each particle should be individually toasted before it has a chance to melt down, and in that state it is readily assimilated.—New York Press.

The Choice of a Wife.

A German professor selects a woman who can merely stew prunes not because stewing prunes and reading Proclus make a delightful harmony, but because he wants his prunes stewed for him and chooses to read Proclus by himself. A fullness of sympathy, a sharing of life one with another, is scarcely ever looked for except in a narrow, conventional sense. Men like to come home and find a blazing fire and a smiling face and an hour of relaxation. Their serious thoughts and earnest aims in life they keep on one side. And this is the carrying out of love and marriage almost everywhere in the world, and this the degrading of women by both.—From One of Mrs. Browning's Letters, 1846.

The Value of New Ideas.

The recognition of the value of a new idea in regard to a business point is leading employers to encourage criticisms and suggestions from employees in respect to the details of the business, thus utilizing their microscopic view rather than depending solely on the birdseye view which is taken by the manager. A friendly feeling results from this attitude, and the employee takes a deeper interest in his work, developing his own capacity and helping the business. To see his idea carried out by his superiors puts new life into him and adds new enthusiasm to his efforts.—Success.

The Wedding Ring Finger.

The wedding ring was placed on the left hand as nearest the heart and on the fourth finger because that finger was supposed to have its own "private wire" (in the shape of a delicate nerve) to the heart. That finger, too, was called the medicine finger, and the belief was that by virtue of the little nerve it could detect a dangerous poison if simply inserted in the liquid. From that belief the idea that wedding rings—the rings worn on that finger—had special curative qualities had its rise. To this day wedding rings are rubbed over an obstinate sty on an eyelid.

The Chance He Lost.

"Why are you so sad, Alice?" her mother asked.

"I've decided not to keep company with Mr. Jonesby any more."

"Dear me! Have you heard anything about him?"

"No. But last night when I said I wished that I was a man he merely asked me why, instead of getting excited and saying that life would be hateful to him if I had not been born a girl."—Chicago Record-Herald.

Cynical.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."—Washington Star.

His Compliment.

Fond Young Mother (with firstborn)—Now, which of us do you think he is like? Friend (judicially)—Well, of course, intelligence has not really dawned in his countenance yet, but he's wonderfully like both of you.—Punch.

The Best Kind of Charity.

The best kind of charity is not that which makes a man easy in destitution, but uneasy in it—uneasy enough to struggle out of it by the aid of a friendly hand.—Zion's Herald.
